LIVING WITH NATURE

India is undergoing significant changes, driven by a more modern mindset, increased environmental consciousness, and higher living standards. We collaborated with Supreme to develop an advanced urban resort environment for Supreme Boulevard.

Our landscape concept focuses on integrating natural features in a vast open area – to create a unique landscape environment that highlights local flora for long-term compatibility and harmony with the architecture, and the resort life comforts that the space provides. We worked to create a design that endures and respects its surroundings. Our goal for Supreme Boulevard was to ensure that our landscape design take advantage of the vast open spaces and stands the test of time.
